WITH seven candidates announced for
the Republican nomination for sheriff,
the ominous quiet pervading the county
would indicate that somebody is
sawing a large quantity of wood.

THE bicycle "scorcher" is a public
nuisance. As a rule he rides for neither
business nor pleasure, but with the idea
that his recklessness makes him a hero
in the eyes of pedestrians. His efforts
are not appreciated by the grand-stand.
He should be suppressed.

SUNDAY'S dailies contain an account
of a cyclist belonging to the objection-
able class known as "scorchers," who
literally hung himself in his blind
rush by striking a telephone wire sag-
ging low in the street. The wire caught
under his chin, and almost decapitated
him.

THE rights and privileges of wheel-
men, and pedestrians, have been under
lengthy discussion at Columbus, and
has resulted in the riders of that city
being entirely satisfied, in the passage
of an ordinance which provides: That
coasting shall be prohibited; that at
least one hand shall be kept on the
handle bar; that bells shall not be re-
quired; that a position permitting an
unobstructed view ahead will be re-
quired; that the speed shall be limited
to ten miles an hour; that all vehicles
shall keep to the right; that riders
shall slacken speed at crossings; that
their machines shall at all times be
under perfect control; that persons
causing collisions shall be fined; that
the fines for excessive speed shall be
\$25, and costs, and that riders may ride
between the street car tracks if they
choose to assume the risk.

THE Board of Trustees of the Athens
State Hospital, met Saturday evening
with Col. Moore at his home below
town. The matter of a new superin-
tendent to succeed Dr. Dunlap, the
present superintendent, engrossed the
attention of the Board, and that body,
composed of five members, chose as Dr.
Dunlap's successor, Dr. D. T. Rorick of
Fulton county, Ohio. The Board did
not elect a steward, as it was thought
it might, for the reason that the offi-
cer's election follow the recommenda-
tion of the superintendent. The new
superintendent will take charge about
June 1st. Dr. Dunlap will locate at
Zanesville. The steward, to succeed F.
Marion Cline, will probably be a gen-
tleman out of Logan county. There
are two gentlemen of Washington county
who are talked of for the position,
R. T. Moore and D. H. Merrill.

Columbus Society Lady Dies.

COLUMBUS, O., May 9.—Mrs. C. D.
Firestone, one of the best-known so-
ciety ladies of this city, wife of Clinton
D. Firestone, a manufacturer, died Fri-
day, after a lingering illness, of paraly-
sis.

New Ohio Postmasters.

WASHINGTON, May 9.—The following
fourth-class postmasters were appointed
for Ohio Friday: Crabtree, Scioto
county, John M. Gunn; Cosica, Mor-
row county, Frank C. Snyder.

THE POLITICIAN.

"Cleveland intends to get himself
nominated again," said a New York
business man who came to Washing-
ton this week especially to find out Mr.
Cleveland's intentions, "and he is going
to get up a war scare, perhaps an
actual war, in order to help his chances
of election, which, strange to say, he
thinks are already good." The publi-
cation of the name of the man who
used this language would create a big
sensation, but it was only upon a pledge
that it would not be done that the man
to whom he talked repeated it to the
writer. There is plenty of
evidence in sight indicating that the
man correctly stated Mr. Cleveland's
intentions. The activity of the ad-
ministration agents in fighting the
silver democrats is known to be per-
sonally directed by Mr. Cleveland, and
recent movements in connection with
Cuban affairs are significant. Gen.
Fitzhugh Lee never would have been
sent to Cuba as Consul General if he
had only been expected to perform the
ordinary duties of that position; duties
for which he is entirely unfitted, not
only by lack of business experience,
but because he can neither speak nor
read the Spanish language. Just what
his part of the game is to be is not yet
apparent, but it may be set down as
certain that he has a part, an im-
portant part, to play. So too, with the
strong squadron of war ships which
the administration has been gathering
in Hampton Roads for many months.
These vessels are, it is believed, gathered
for a purpose. It will be remembered
that the Spanish minister cabled to
his government several months ago
that Mr. Cleveland had promised to
keep his hands off the Cuban revolution
until June. It looks like that
promise was going to be kept. After
June the Democratic convention will
be held. Then Mr. Cleveland will
know whether that war scare will be
worth while.

A petition signed by 31 Senators, 29
Republicans and Pepper and Butler,
populists, reading as follows, has been
sent to the Finance committee of the
Senate: "The undersigned request that,
in case any bill relating to internal re-
venue or the tariff is considered by the
Senate at the present session the com-
mittee on Finance will move and sup-
port the addition of a clause providing
for an adequate duty on wool." In a
note which accompanied the petition
Senator Chandler wrote Senator Mor-
rill that the petition had not been pre-
sented to any member of the Finance
committee for signature, nor to either
of the Republican Senators who had
voted against taking up the Dingley
bill, and that some Senators were out
of town who would have signed it, and
closed with the statement that he be-
lieved all the Republican Senators,
and the populists, to be in favor of put-
ting a duty on wool whenever any
amendment of the present tariff laws
is made. The petition was not pre-
pared with any idea that any bill relating
to the tariff would be passed at this
session, but merely to show what might
be expected if the bill for the repeal of
the law which allows a rebate of the
tax paid on alcohol used in the arts be
taken up.

The House by nearly two-thirds vote
refused to except the Senate amend-
ment to the Naval appropriation bill
reducing the number of battleships
provided for from four to two, and the
talk of the members indicates an in-
tention to stick which will, if persisted
in, win. A change of three or four
votes in the Senate is all that is needed
to knock out that amendment.

The House got tired of waiting for
the Senate to take the initiative in the
matter of adjournment and this week
adopted a resolution to adjourn on
May 18. This means that the House
will be ready to adjourn on that date,
but what the Senate intends to do is
yet to be learned, even by the Senators
themselves. It is practically certain,
however, that adjournment will not
take place on the date mentioned, nor
for several weeks thereafter.

The number of Republicans in Con-
gress who do not think that Gov. Mc-
Kinley will be nominated and elected
President has been materially lessened
by the occurrences of the past week.
But those who still hold out that he
will not be nominated are very posi-
tive, although they do not say who
will be.

The Senate committee on Foreign
Relations reported a bill authorizing
the Postmaster General to make a con-
tract with any company which may
lay a cable to Hawaii to pay an annual
subsidy not exceeding \$160,000 for the
carrying of government messages. The
bill was accompanied by a strong re-
port in favor of this cable.

That expected blanket civil service
order was issued last week. S.

Your Boy! Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St.,
South Gardner, Mass., was told by the
doctors. His son had lung trouble,
following Typhoid Malaria, and he
spent three hundred and seventy-five
dollars with doctors, who finally gave
him up, saying: "Your boy won't live a
month." He tried Dr. King's New
Discovery and a few bottles restored
him to health and enabled him to go
to work a perfectly well man. He says
he owes his present good health to the
use of Dr. King's New Discovery, and
knows it to be the best in the world
for lung trouble. Trial Bottles Free

IN THE OIL FIELDS.

Ellenboro, W. Va., May 9.—Davis &
Scott have abandoned their well on
the W. H. Hamilton farm at Highland.
They reached a depth of 2,553 feet last
night, and finding no Beres grit stop-
ped operations. This well was a rank
duster, no showing of oil being found,
and only a small flow of gas in the
salt sand.

The well on the Israel farm on Rock
Run is now thought to be a very poor
one, but the reports are so conflicting
that any news from this well must be
taken with considerable allowance for
romancing.

On Whisky Run work is progressing
nicely on the Strickler farm and on the
McCosh land. These two wells are
both being drilled by George H. Nes-
bitt and his associates and will both
be in about the same time.

While Whisky Run will probably
never develop into anything like a
large producing field operators think
it valuable territory for small and
medium sized wells, which pay very
well owing to the fact that the produc-
tion holds up, and when they get a
fifteen-barrel well in this territory
they know they have that production
for a long time.

Ballard & Co., who held a lease on
the Wm. Wince farm, on Whisky Run,
allowed it to forfeit last week, and in
order to renew it they were obliged to
pay \$300 bonus and increase the month-
ly rental from \$10 to \$50.

David Brown, of Mannington, offered
Stephen Seckman \$500 cash for one-
half interest in his eighth royalty in
45 acres of land on Whisky Run.

The North Penn Oil Company are en-
deavoring to re-lease the block of land
about town formerly held by John M.
Patterson, of Pittsburgh, who drilled a
well on the Dawson farm three years
ago.

The Henry Oil Company expect to
commence operations next week on
their block of leases between here and
Cornwallis.

The Cow Run territory about Hebron
is now attracting much attention in
this locality, and oil men are eager to
secure any piece of territory or royalty
that is not taken, as everything in the
vicinity of the four producing wells
"looks good," as oil men say. Any of
these wells are producing from 75 to
100 barrels per day, and every shallow
well has been a producer. A dozen
new wells will be started within a
week. The territory is largely held
by Bettmann & Watson and the Victor
Oil Company. It will be remembered
that Mr. L. C. Shingleton, on whose
farm the first well was struck, offered
to pay Bettmann & Watson \$1,000 if
they would allow him to locate the
first well, in case it was dry. It is now
thought the Victor people were back
of Mr. Shingleton, as he located near
their line and tested a large block of
territory for them, which is now very
valuable.

Pittsburg capitalists are expected
here in a few days to look over the
block of territory recently taken up
on Lost Run, with a view of drilling a
test well.

It is now given out that the Cairo
field is not more than 2,100 feet wide,
as several wells have been drilled both
east and west of the defined territory
and no oil has been found.

Ashland, Ky., May 8.—M. Caverly,
manager of the field work in West Vir-
ginia for the Florence Oil Company, a
Pittsburg concern, while in the city
stated that the company would imme-
diately begin the sinking of a well in
the Salt Rock neighborhood of Cabell
county, twenty miles beyond Hunting-
ton. A well sunk there a year ago
gave in small quantities a fine grade of
oil, and if this attempt is not produc-
tive other attempts will be made.

Captain A. Allen, the Huntington,
W. Va., oil land speculator and opera-
tor, left the city last night with a party
of Eastern oil men, chiefly among
whom were Bradley & Son, of Bolivar,
N. Y., for the Marrowbone section of
Marion county, Ky. A paying strike
has recently been made on this creek,
which is in the Warfield natural gas
territory, and as Bradley & Son were
interested in the latter ten years ago,
their visit now is looked upon as prom-
ising some active attention in the very
near future. Locations for half a doz-
en wells have already been decided up-
on on Marrowbone by the different
companies that have lately visited that
section.

There is a report that the Corning
Oil Company, a Columbus, O., concern,
that already has one paying oil well on
Cow creek, in Floyd county, has com-
pleted another flowing well in the
Beaver creek field, recently operated
by the New Domain Oil and Gas Com-
pany with small encouragement. The
company is to put down another well
at once near the same point.

Burning Springs, W. Va., May 8.—In-
dications for a fine producer have been
found in the well which will be drilled
in here today by the Roy Oil Company,
of Parkersburg. The sand was found
at a depth of 1,100 feet and the well is
in defined territory.

A rig was completed today by the
Grant Oil Company, of Parkersburg,
for a well to be drilled on the Dilworth
farm. Spudding will commence to-
morrow.

The Moundsville Echo says: The oil
column floats a crane steamer at half
mast this morning. The Shamrock is
reported dry. The drillers say that

they punched a hole 667 feet deep and
only developed a show of gas. People
who are interested in the territory ly-
ing around that section are of the opin-
ion that the Shamrock is being worked
as a mystery. It may or may not be,
but when a new well is reported dry
old operators invariably accept it as
conclusive and the well never resur-
rects. In the matter of drilling the
Shamrock was a record breaker. It
took just one week to put the hole
down.

Shay & Nichols, of Sistersville, have
located a well on the Thompson estate
on the Ohio side. Kennedy & Law-
rence commenced the rig yesterday.

Hess, McMullen & Co. sold three oil
well rigs yesterday, one for the Thomp-
son farm, one for the Griffith tract and
one to the North Penn Company.

MATTHEW STANLEY QUAY.

"I'm in the presidential fight to win,"
said Senator Quay recently. And whoever
knows Quay knows that this means a hard
fight. This worthy politician was born
in Dillsburg, Pa., September 30, 1833.
He was prepared for college at Beaver and
Indiana academies; was graduated from Jeffer-
son college in 1850, and admitted to the
bar in 1854. During the war he was a
Lieutenant in the Tenth Pennsylvania re-
serves; colonel of the One Hundred and
Thirty-fourth Pennsylvania volunteers and
military state agent at Washington. In
1857 he served in the state legislature;
was elected state treasurer in 1858; was
chosen chairman of the republican national
committee in 1888, and conducted the suc-
cessful presidential campaign of that year.
He was elected to the United States senate
as a republican, and took his seat March
4, 1887, and was reelected in 1893.
